

Factsheet : Trust Creation and Administration

A trust can be a very useful way of ensuring that your wishes are carried out in relation to particular assets in a variety of situations, such as:

- Saving taxes, particularly Inheritance Tax and Capital Gains Tax
- Safeguarding assets for young or disabled children
- Safeguarding assets for descendants on the death of a widow or widower
- Providing for one's family or others in the future, but giving the trustees the flexibility in making such provision

We can advise you on the different types of trust and the most suitable for your objectives.

We will set up the trust for you and we can also advise and help with any trust administration
